

**16th INTERNATIONAL EXERGY, ENERGY AND ENVIRONMENT SYMPOSIUM
IEEEES-16
16th INTERNATIONAL CONFERENCE ON HYDROGEN PRODUCTION
ICH2P-2025**

IEEEES - 2025

**December 14-18, 2025
Craiova, Romania**

www.conference.icmet.ro

conference@icmet.ro

High quality papers of archival value will be considered in extended form for publication in various reputable international journals such as:

[Hydrogen Energy I.F. 8.3](#)

[Global Warming I.F. 1](#)

[Exergy I.F. 1](#)

[Energy Storage I.F. 3.6](#)

High-quality conference works/presentations/posters are considered for publication in above reputable international journals. To be considered for journal publication, conference works/presentations/posters typically require significant expansion beyond the original scope. This may involve adding more results, analysis, or in-depth discussion. The works should report scientifically sound experiments and provide a substantial amount of new information. The article should include the most recent and relevant references in the field.

These reputable journals are characterized by a rigorous peer-review process, an active editorial board. Journals implement, as is well known, an evaluation process, carried out in accordance with their specific rules. The structure should include an Abstract, Keywords, Introduction, Materials and Methods, Results, Discussion, and Conclusions sections.

The organizers of the event encourage the participants to take advantage of this aspect in order to make the most of their scientific contributions and their professional prestige.
